

This template is built using the Zen Grid Framework and contains 54 module positions for you to use to create flexible page layouts. For a full understanding of how the module positions work in framework compatible templates please visit the [Zen Grid Framework documentation](#).

The screenshot below highlights the modules available in this template. For a run down on how we created the demo site for this template please visit the [setup menu item](#) and review the documentation available there.

top1	top2	top3	top4
header1 logo*	header2	header3	header4
logo*	menu
